

WE PROVIDE SMART SOLUTIONS

Whether you are an established business looking for better service or reduced costs, or a brand new start-up looking for a completely fresh set-up, **Universal Technology Solutions** have the product suites and services to suit your business size, need and budget.

WHY CHOOSE US?

- ✓ We are a Sydney based IT solution and communications support and services company with over 30 years' experience
- ✓ We provide end-to-end information technology services designed to suit your business needs
- ✓ We can manage your everyday IT and communications needs so you can concentrate on your growing business
- ✓ High-tech support with excellent response times and solutions

HOW WE WORK

Universal Technology Solutions is focused on meeting the needs of your business. We aim to provide smarter solutions that allow you to focus on what you do best – running your business by offering project management and ongoing services.

We work with you to identify and review your technology and communications requirements to support the growth of your company.

We also provide cloud solutions and specialise in the custom development of websites for small to medium sized businesses across a variety of industries.
